

## **CfaN Youth Crusade Discipleship Pathways (follow-Up)**

1. **Holy Spirit** – Karin and myself found that after we received Jesus as our Lord and Saviour at a young age, something shifted inside of us and we pursued Jesus and wanted to know more.
2. **What's Next Booklet** – after our program in schools we encourage the students to study the material they will receive that will explain to them the next steps in their walk with Jesus. We also encourage them to show the booklet to parents and pastors and to be baptised in water at church
3. **Teacher Talk** – When you talk to the teachers after you led the children to Jesus encourage them to disciple the children.
4. **WhatsApp** – After your outreach you can collect the teachers numbers to bulk SMS or WhatsApp the teachers discipleship material for their children. With the WhatsApp you can set it that they can only receive and not reply. We have telephone numbers for more than 8000 principals that have more than 100 000 teachers we can talk to, you can do the same.
5. **Partnering Organisations** – you can sponsor or get partnering organisations to help you with the follow up process. All you need to do is to share your school contacts and they can arrange trainings for the teachers over the weekends. Organisations like Scripture Union, One Hope, Awana, Edify, World Vision to name a few. There are many more to choose
6. **Pastors** – You can invite pastors in the region of the schools you visit to join you on the day and agree to visit that school on a weekly basis during their assembly time
7. **Church** – You can invite the children to a church service in the area in the evening where they can receive a gift (food) and ongoing discipleship from the local pastors. This have been done in Asia where the children do not go to church yet and they bring their parents too.
